CLEMENT **FAISANDIER**

Bellevue, WA, 98004 | M: 425-974-5012 | clementfaisandier@outlook.com
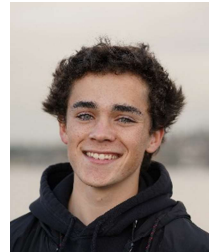

SUMMARY

Passionate in coding and computer science, I graduated from Bellevue High School with multiple AP in STEM and am currently attending Western Washington University, pursuing a BS in Computer Science.

GOALS

To be part of a computer science related internship or during the summer of 2020 or the 2021-22 school year to learn about programming as a career.

SKILLS

Web Design   Object Oriented Programming
Single Variable Calculus   Bilingual: French / English

EXPERIENCE

07/2017 to 08/2017   **Computer Science Intern** - **Powell Software** – Paris, France
Built SharePoint and web pages to extend the Powell Software features. Used Angular and graphs.js to build many web pages displaying server analytics.

07/2019 to 10/2019   **Server/Barista** - **Cépaé/La Parisienne** – Bellevue, WA
Took orders, made drinks and served customers at a Bakery/Wine Bar. Worked with a team of cooks and servers to deliver the best experience to our guests.

12/2016 to 02/2018   **Snowboard Instructor** - **Ullr Snow Sports** – King County, WA
Taught groups of students between 6 to 10-year-old how to snowboard. Worked with other instructors to more effectively teach our classes.

EDUCATION

Ongoing   **Undergraduate Student** - **Western Washington University** – Bellingham, WA
Relevant Classes: Computer Programming and Linear Data Structures, Web Design, Dynamic Web Pages, Single-Variable Calculus 2.

2019   **High School Diploma** - **Bellevue High School** – Bellevue, WA
Relevant Computer Science classes: AP Computer Science: heavily focused on Java, learned about object-oriented programming, received 5/5 on the AP test.

ACCOMPLISHMENTS

AP Computer Science Test: 5/5 (extremely well qualified)
AP Physics 1: 4/5 (well qualified)
AP French Language and Culture: 5/5 (extremely well qualified)
Built a physics simulator in C# and XAML during my senior year of high school. Currently working on an Android app I plan to finish and publish by March 2021.
